

# Mini-Bulk Tank (MBT) Testing Kit

## ISBT FOUNTAIN LIQUID CO<sub>2</sub> TESTING KIT

### KEY BENEFITS

- The MBT sampling kit is designed for easily obtaining and shipping representative CO<sub>2</sub> samples from both the liquid and vapor phases of all types of mini-bulk tanks (MBT's) used in fountain industry beverage applications.
- Samples taken using this kit can be *No-Haz* shipped to Airborne Labs Interantional (ALI) for analysis using International Society of Beverage Technologist (ISBT) approved test methods.
- The MBT sampling kit can be used for periodic mini bulk tank condition checks to monitor possible build-up of non-volatile or other impurities within the tank.
- All MBT kits undergo clean-out validation to ensure that new or repaired MBT kits are free of all interior impurities before next use.
- Available for rental or for purchase.

### KIT COMPONENTS

- VPR-HF-120-SQC 120VAC/200W Passivated Flash Vaporizer / Pressure Regulator Unit
- SnowQuik 1.3B with PRA-500 & SST QC (Male) inlet assembly
- 1L Insulated NVR Can with Lid & ID Tag
- 4 x 2L True Blue MLB Bags
- 2 SHA T-Fittings (1 Liquid & 1 Vapor)
- 1 DS-2KG Top Loader balance
- 1 Pair of Cryo-gloves
- 1 SST QC-FO to 1/4" NPTM fitting
- 1 90° QC adapter to 1/4" NPTM
- 2 wrenches
- 1 spare brass 1/4" NPTM plug
- 2 security tags
