

Xcela-390 Series™

CO₂ PURITY ANALYZER

PRODUCT BRIEF
TURN-KEY MOBILE RACK CO₂ ANALYZER

KEY BENEFITS

- Comprised of rugged, reliable analyzers with totally Silconert® passivated hardware & tubing that meet all ISBT guidelines for sampling & testing of beverage-grade CO₂.
- This Xcela™ system offers *on-line* measurement of Total Sulfur Content (TSC), Aromatic Hydrocarbon (Benzene), Acetaldehyde (AA), Total Hydrocarbon Content (THC), Water Vapor (H₂O), Trace Oxygen (O₂), NO_x / NO₂.
- GAS-5XLT™ & GAS-5XLS™ detector tube (DT) based analyzers are included for *fail-safe* back-up testing of TSC, Benzene, AA, MeOH, H₂O, NO_x, NO₂ as well as periodic testing of many other impurities (ex. H₂O, SO₂, CO, NH₃, HCN, VCl, H₂S, PH₃, %CO₂ [with ZN-49 accessory], Sensory [with Sensory 15/16 accessory]).
- ALI's Methods Manual includes all validated ISBT / CGA / EIGA specified methods. All systems are shipped fully plumbed, tested & professionally crated for safe transport plus rapid on-site start-up.
- An ASCM-10 gas controller allows for either operator or automated data station control of up to 10 sample lines plus analyzer auto-verify / auto-cal functions.
- An intuitive, industrial-grade data station (DSA Blackbox™) conveniently displays up to 24 channels of test data, performs data-logging, allows manual test data input (ex. DT, NVR, % CO₂, Sensory), issues quality alarm alerts, generates CoA reports (for several purity grades), features operator-programmed sample-line sequencing & remote access for data quality auditing or preventive maintenance services.
- ALI & its worldwide service network offer installation, training, expert technical support, ISO-certified lab back-up, preventative maintenance, repairs, spares, all calibration & support gases plus all consumables (ex. all Mfg DT models).

42.66 in. [1084 mm]

GE DEW IQ
Moisture Analyzer

CAI NO_x 600 SERIES CLD
NO_x Analyzer

BASELINE BAM 8900
Aromatic Hydrocarbon (Benzene)
Acetaldehyde (AA), Methanol (MeOH)

BASELINE TSC 8900
Total Sulfur Content Analyzer

GAS-5XLT™ & XLS™ MODELS

BASELINE THA 9000
Total Hydrocarbon Analyzer (THA)

ALL GPR-1600
Trace Oxygen Analyzer

ASCM-10-2
Automated Sample Line and
Calibration Control Module

DSA BLACKBOX™
Data Station

RECOMMENDED ACCESSORIES

Hydrogen Generator
Proton On-Site
Hogen-600

Zero Air Generator
Parker Balston
with GAST Compressor
& Auto-Drain.

PowerVar
Power Conditioner &
Surge Protector

Digital Flow Meter
(Pressure &
Temperature Compensated)
& Mini Leak Detector

Calibration Gases
(available in various sizes)

Detector
Tubes

Sampling Cylinder
with Vaporizing Pressure
Regulator & stand.
(for Liquid CO₂ Sampling)

ZCheck 5XLT
Passivated Check Valve Assy
& Zahn & Nagel % Purity
